President's Message

On behalf of our faculty, staff, and students, I would like to welcome you to Zhejiang International Studies University (ZISU). Established in 1955, ZISU was formally accredited as Zhejiang Education Institute, focusing on pedagogical education and teacher training. In 2010, it began to extend its degree education to a wider variety of majors in language and literature, international business and trade, culture and tourism, etc., hence the present name.

ZISU is a public university with a harmonious community, extensive external connections, and an international environment. It is situated in Hangzhou City, capital of Zhejiang Province. This city is renowned for its fabulous scenery and leading role in China's international business and trade. It serves as the host of the G20 Summit in 2016 and the 19th Asian Games. With a population of over 12 million, Hangzhou provides ZISU students with limitless opportunities for internships, cultural experience, and social participation. Aimed at cultivating international and application-oriented talents, ZISU receives hundreds of overseas teachers and students every year, fostering a community where different cultures integrate and an academic setting where diverse perspectives converge.

Under the university motto of Virtue, Perseverance, Erudition, and Practicality, ZISUers are educated and inspired to hold unswerving ideals and beliefs, contribute to society, and strive forward with diligence and perseverance. Our talented and devoted faculty and staff endeavor to offer ZISUers a solid foundation of essential knowledge and skills to help advance their careers.

ZISU places a high value on internationalization. It has been dedicating much effort in recruiting more overseas students and experienced professors, expanding its international exchange and cooperation programs, optimizing campus services, and providing more development opportunities for overseas faculty and students. Here at ZISU, both the Chinese and overseas faculty and students are empowered to pursue their ambitions and achieve excellence. Furthermore, we seek to keep strengthening our talent training, scientific research, social services, cultural inheritance and innovation, and international collaboration, thus establishing ZISU into an incubator for internationalized talents, a think tank for the local opening up, and a promoter of international cultural and educational exchanges with increasing influence in Zhejiang Province.

Enjoy the beautiful scenery of ZISU and explore the international opportunities we are known for. I welcome you to our campus and experience ZISU in person!
